Throughout the later decades of the 20th century there was also the inline injected six cylinder Ford Lehman marine diesel which was about the same size as the Perkins 6-354 and the Cummins 6B. These were the small engines, but small is relative. The Perkins 4-236 marine engine was known as the M90, indicating that maximum power output was 90hp.

Small Marine Diesel Engines - Sail Eva

History of SABB Marine Diesel Engines. In 1925 there were some 53 manufacturers of small semi-diesel engines along the Norwegian coast, providing power units for the fishing fleet which was at the time was still largely working with sail and oars. Two brothers, Alf and H å kon S ö yland, started one such firm near Bergen, and designed a 3HP hot-bulb engine which was produced by a staff of three ...

The SABB diesel is a very reliable but pretty agricultural piece of equipment. Having said that I would not swap mine (18HP with the VPP). The origin of the VPP was for Norwegian fishing boats which went out empty and came home full - hence requiring a different pitch on the prop. The key to ease of use is to set the idle speed as low as ...
