The Education of a Coroner: Lessons in Investigating Death ...

The Education of a Coroner is about the experiences of one man and his coworkers in the coroner's office of Marin County, California, throughout his career, which spanned from the late 70s through the new millennium. The rapid changes in technology, philosophy, and techniques in just under 40 years is incredible.

The Education of a Coroner: Lessons in Investigating Death ...

Many coroners are licensed physicians who have no training in forensics, while in hundreds of communities across the country—including Marin County—the coroner isn't required to have any medical training at all, much less a medical degree. He or she just needs to have a clean record, meaning no felony convictions, be twenty-one or older, and have a high school diploma.

The Education of a Coroner: Lessons in Investigating Death ...

All in all I have to conclude that those in the position of coroner do tend to do the best they can, however, a medical examiner would be far better qualified than a high school graduate. At the very least, if they give a medical opinion I can trust that they have the medical training and diploma to back that opinion up.

Amazon.com: The Education of a Coroner: Lessons in ...

Ideally, coroners have some medical degree however, that is not a requirement. It would help raise the overall quality of death investigations with uniformity in reporting and archiving. You can think of centralized administrations by state, improving services in the more rural parts of a state, shared databases, and even spreading costs that may be initially high to set up such an office.
